*By Chao Feng*

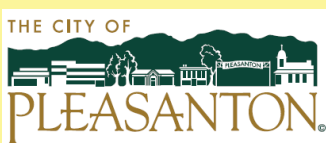

**Sunday, March 11 at 2 p.m.**

Cameras and lenses, big and small, expensive and cheap, so many choices!

What are the differences and what really matters?

In this talk, we'll take a practical look at photography equipment. We will discuss what equipment works best for your needs. At the end, you will have a good understanding of what your existing equipment can achieve and what your budget should be for your next equipment. This program is free and open to all.
