Our exciting keynote speaker will discuss an issue that is increasingly affecting the future of our children. Julie Lythcott-Haims, former Dean of Freshman and Undergraduate Advising at Stanford University, and the author of How To Raise An Adult, will give insight on how over-parenting harms children, their overstressed parents and society at large. Relevant to parents of toddlers as well as of twenty-somethings, and of special value to parents of tweens and teens, She will offer practical alternative parenting strategies to help our kids develop the resilience, resourcefulness and inner determination necessary for their success.
